

I would like to be considered for the following scholarships offered by the Trusts (in addition to the Cambridge International Scholarship and Gates Cambridge Scholarship):

- Commonwealth Cambridge Scholarship
- Cambridge Commonwealth Trust Scholarship
- Cambridge Australia Scholarship

I should be considered for a scholarship because without financial assistance, I would not be able to afford to take up a place at the Computer Laboratory.

There is a close fit between the research done by the Programming, Logic, and Semantics (PLS) group and my own interests and experience, which is only being reinforced during my time in the Laboratory as an MPhil student. My Honours work in Australia led to a paper published at the major conference in my field, Interactive Theorem Proving. Indeed, I met many members of the PLS group at that conference before arriving at the Laboratory. During my first term in Cambridge, I have embarked on a couple more projects involving theorem provers, and hope to produce more research while maintaining an excellent academic record.
